Concept Design Services for EagleBurgmann Industrial Plant Istanbul

**Client** EagleBurgmann+Freudenberg

**Work Period** 02.09.2013 - 27.09.2013

**Services provided** Concept design services

**Technical Details** The project consists of concept design services regarding EagleBurgmann Industrial Plant in scope of building revisions. EagleBurgmann Turkey was founded 23 years ago with offices, warehouses and a manufacturing plant located in Istanbul. In 1999, the company has moved to new premises in the area of Tuzla, which comprises a 5000 m<sup>2</sup> production facility and modern offices. Over the past 23 years, EagleBurgmann Turkey has been leading the local industrial sealing sector. The main products manufactured in this plant can be listed as mechanical seals, magnetic couplings, carbon floated ring seals, seal supply systems, gaskets/compression packings, expansion joints.
